EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 45 is cancelled.

Allowable Subject Matter

2. Claims 33, 35-39 and 41-44 are allowed.

3. The following is an examiner's statement of reasons for allowance: The closest prior art of record is the references relied upon in the previous office action. Applicant's newly added product-by-process limitation overcomes the 102 rejection over Martin. The compositions of Martin require the use of a solvent. Regarding the rejection over Kelly, etc., Kelly requires the use of an oxide, rather than a salt. The Martin, Wheatley and Lund references all require the use of a matrix. It is not clear that any teachings of modifying particle sizes which are germane to a polymer bound explosive could be fairly extended to the formulation of a granular explosive. The rejection over Bagley, etc. relies upon Dixon for a teaching of particle sizes, but the Dixon reference employs oxides, rather than salts as oxidants. While both the salts and the oxides act as oxidizers, the examiner does not believe that extending a teaching of a particle

size from oxides to salts rises above the "obvious to try" standard. Accordingly, the claims are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Regarding the cancellation of claim 45, applicant has not traversed the withdrawal from consideration of this claim. Accordingly, the restriction has been treated as being without traverse.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to the examiner, Dr. John R. Hardee, whose telephone number is (571) 272-1318. The examiner can normally be reached on Monday through Friday from 8:00 until 4:30. In the event that the examiner is not available, his supervisor, Dr. Yogendra Gupta, may be reached at (571) 272-1316.

The fax phone number for the organization where this application or proceeding is assigned is (571) 273-8100.
